

## Barbara Anne Lorentzen

January 2, 2024

Barbara Anne Lorentzen died peacefully in her sleep on January 2, 2024. A loving and devoted wife of 59 years and wonderful mother of 2, there was nothing in this world that Barbara loved more than her family. Barbara was born Barbara Anne Rush in Webster City, Iowa to parents Gaylord and Mabel in 1943. Barbara would soon become big sister to Susan (Shaw) and Wanda (Lingren), who both still reside in Iowa. Marrying her high school sweetheart, (and boy next door), Lenny in 1964, Barbara and Lenny would travel the world, compliments of the United States military. They welcomed son, Christopher, in 1964 and daughter, Lisa, in 1968. Barbara was sweet, kind, gentle, caring, beautiful, fun, and adventurous. A voracious reader and avid learner of things who loved Stephen King novels, Neil Diamond, traveling, laughing, and meeting people. Barbara never met a stranger, and once you were a friend of Barbara's, you were a lifelong friend. Barbara loved all of her family, and visited them often. Whether she was visiting one of her kids, taking grandkids for summer vacations, or making her yearly pilgrimage back to Iowa to visit family and attend her yearly high school reunion, Barbara loved life and loved socializing. Barbara will be painfully missed and is survived by her son, Chris, her daughter, Lisa, sisters Susan and Wanda, sister-in-law Karin Sue, 5 grandchildren including Danielle, Angela, Samuel, Andrew, and Deven, and great-granddaughter Aida. Truly, an angel walked among us and has left a peace of herself in everyone who loved her and misses her.
