“ Oh Dan why did you have to leave so soon? You know how much we had to talk about. Our childhood wasn't the best but we could always depend on the three of us watching out for each other. In a way I'm a little jealous you are now walking on the streets of gold with Christ beside, in fact you both are probably carrying a fishing pole over your shoulder. Tell Mom, Oleta and all our family hi and I will be there when Jesus is finished with me. I love you big brother, lots and lots of hugs. I'll try to check on Ellen ocationaly for you.
