“ Susan was a devoted friend. We met when she started working for State Farm Insurance in the early '60's. After she quit working we remained in touch even after she and Jerry moved to Illinois. I visited them twice in their beautiful homes in Bloomington. I always admired their stained glass creations. Susan was always dressed to the "nines" and was a great cook. Along with Jerry they would set a beautiful table and their meals were out of this world. Over the years Susan shared many delicious recipes with me. Later when they moved to Prescott we continued to correspond. Susan would send me photos of their latest stained glass pieces and her beautiful colored pencil drawings and she always remembered my birthday. I feel so fortunate to have known Susan and I will miss my dear friend.
